Grades 'S' to 'E' and 'P' indicate successful completion of course. Courses with grade 'I', 'P' or 'F' do not count towards GPA or CGPA calculation.

For award of Degree, the student has to earn the minimum credits mentioned under the "Total" and also satisfy the category-wise credit requirement as per CGPA summary table in the front page.

$$\mathsf{GPA} = \frac{\sum_{i} (\mathsf{C}_{i} \times \mathsf{GP})}{\sum_{i} \mathsf{C}_{i}}$$

where $C_i = \text{credit of the course}$

GP = Grade point based on the letter grade obtained for the course

 Σ_i C_i = the sum of credits of all courses taken in that term, including those in which the learner has secured U / W grades.

For the cumulative grade point average (CGPA), a similar formula is used where the sum $\sum C_i$ is the sum of credits of all courses taken in all the terms successfully completed up to that point in time.
